APPLICABLE TO THE
IMAGE PROCESSING
METHOD**

(57) Abstract:

PROBLEM TO BE SOLVED: To provide an image transfer device and a transfer method by which even an armature can simply allow a mobile phone with a display device able to capture image data to capture image data such as image data photographed by a digital camera and a reminiscent photo photographed in the past and to display the captured image data onto the display device of the mobile phone and to print out the photographed image and the captured image.

SOLUTION: The image transfer device that transfers an image to the
